# Instruction to Start BART for EISA Alpine with Announcer

Start BART as you usually do and select the Race and Event under the Race Maint Tab. Then Select the Timing Tab to create a dummy time file to avoid a file not found error. Select Administration Tab and Start Announcer button. This will launch the application and present the window below

Select the EISA Alpine option by either double clicking on it or click on it and then on the OK button

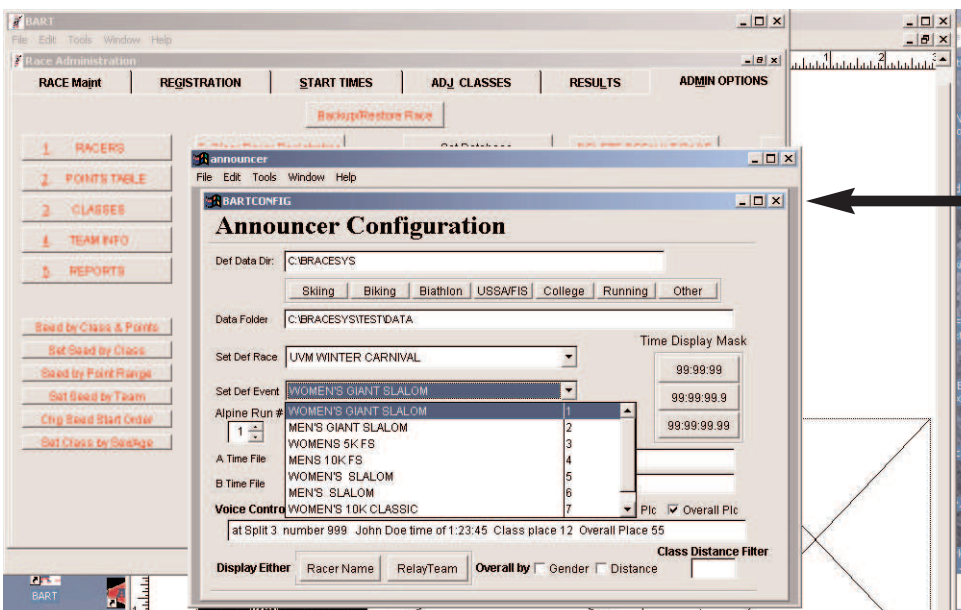

That will bring up the Configuration window. Select the same Race and Event as above and close this window using the lower x box

You will now have the Announcer screen showing in a less than full screen window. This can then be moved to the display monitor by dragging the top bar to the right until it disappears. You can then make it full screen by typing the Alt+Space followed by x  - these are short-cut keys for the same functions available in the upper right of the window

The first announcer screen shows the following results:

**Left column:**

| Place | Bib | Name | Team | Run 1 | Run 2 | Total |
|---|---|---|---|---|---|---|
| 1 | 5 | Ryley, Kate | UVM | 1:00.85 | 1:04.80 | 2:05.65 |
| 2 | 13 | Riis-johannessen, Kristi | UVM | 1:02.31 | 1:05.06 | 2:07.37 |
| 3 | 38 | Visconti, Allison | SLU | 1:02.47 | 1:06.05 | 2:08.52 |
| 4 | 25 | Kistler, Lizzie | DAR | 1:02.57 | 1:06.12 | 2:08.69 |
| 5 | 30 | Woodward, Aylin | DAR | 1:02.41 | 1:06.39 | 2:08.80 |
| 6 | 31 | Shaw, Kara | MID | 1:02.84 | 1:05.97 | 2:08.81 |
| 7 | 20 | Blanchard, Catherine | UNH | 1:02.23 | 1:06.61 | 2:08.84 |
| 8 | 15 | Tefre, Elise-woien | UVM | 1:02.85 | 1:06.00 | 2:08.85 |

| 40 | 54 | Rockwell, Anne | BAT | 1:05.85 | 1:09.52 | 2:15.37 |

**Team Score**

1) UVM-3/130.0   2) DAR-3/111.0   3) MID-3/ 90.0
4) SLU-3/ 78.0   5) UNH-3/ 77.0   6) WIL-3/ 76.0
7) BAT-3/ 61.0   8) CBC-3/ 52.0   9) HAR-3/ 44.0
10) SMC-2/ 34.0   11) BC-3/ 31.0   12) CSC-2/ 18.0
13) PSU-2/ 14.0

You may want to start another instance of the Announcer program and position it above or below the BART window. Doing so allows you to monitor what is being displayed on the remote monitor.

Re-size the windows by clicking and holding the lower right corner of the window. Position the window by dragging the top Bar

# Instructions for running the Web Update program

To Start the Web update program, go to the Administration Tab and click on Start Web Update

This will bring up the FTPSend window - Select the FTP-EISA-Alp Form

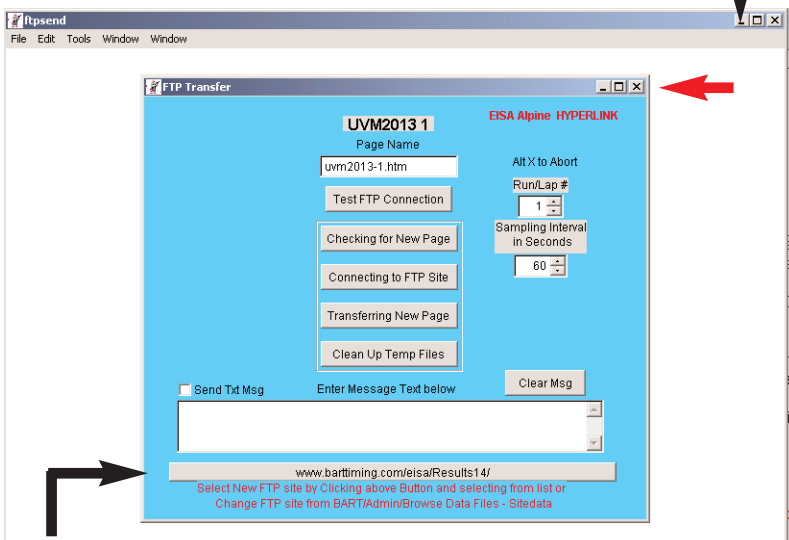

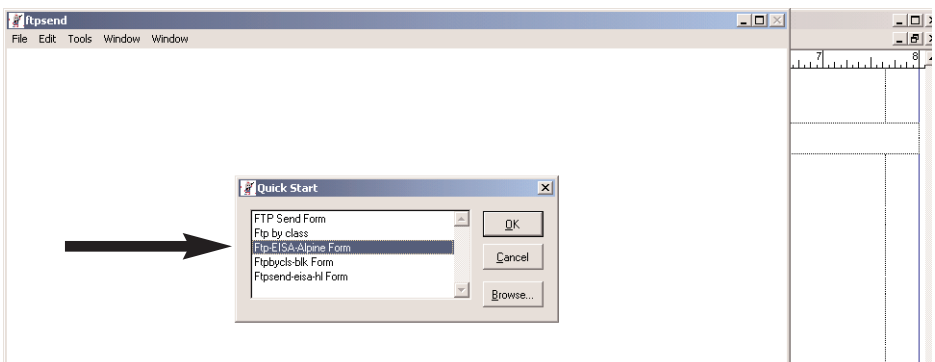

The defaults should all be correct but you can check the file name which should be the same as the raceid + event ie - uvm2014-1.htm

Clck on **Test FTP Connection** and the system should respond with
**Transfer was Successful**
Close that message box and mini-mize the window by clicking the minimize button - Do not Close 'X' the window as that stops the pro-gram.

*It is also important that the correct website is selected*
*It should read* **www.barttiming.com/eisa/Results14/**

*If not, click on the Bar and select* **BART-EISA 14** *from the options listed then* ESC

**To Close the FTPsend program**
**Click on the Close X then type**
**Ctrl-f then x to lose the window**

You should then Open a Browser and go to www.barttiming.com
Select **Link to 2014 Results** in the upper right of the Home page

Select the Carnival and then the Event under Complete Results (Live Timing)

That will show the live web page with whatever data has been entered thus far.

Coaches requested the Team Scores be presented at the Top, followed by the individual results. Each individual competitor is a live link to their EISA results history and from there to EISA results from the past 3 years. There is also a live link to FIS and USSA history via their FIS or USSA numbers at the top of the results page.

With some additonal window movement and sizing, you should be able to display portions of all 3 application windows. This will permit you to see what is happening on the monitor and the web as you make entries.
